UPGRADE YOUR JAVASCRIPT SKILLS.
LEARN REACT.JS IN JUST A COUPLE OF AFTERNOONS.

A premium step-by-step training course to get you building real world React.js + Firebase apps and website components.

START LEARNING NOW

IT'S TIME TO LEARN REACT.JS

With a focus on **simplicity** and **readability**, this course will have you building **real time applications** and dynamic website components in no time!

Together, we will build **"Catch of the Day"** — a real-time app for a trendy seafood market where *price* and *quantity available* are variable and can change at a moment's notice. We will build a menu, an order form, and an inventory management area where authorized users can immediately update product details.

You can [try it out here](#) or [get the course](#) if you are already convinced.

MEET WES BOS

Wes Bos is a Full Stack Developer, Speaker and Teacher from Canada. He works as an independent web developer and teaches as a lead instructor with [HackerYou](#) and [Ladies Learning Code](#). Wes has taught over 500 students in 200+ classes and spoken at dozens of conferences around the world.

Wes is the author of [ES6.io](#), [Sublime Text Power User](#), which together have sold over 10,000 copies, and the creator of [Flexbox.io](#), [Command Line Power User](#), [Learn Redux](#) and hundreds of YouTube Tutorials.

[Follow @wesbos](#) 93K followers

"JavaScript is everywhere now, as is React. Strong React skills is a great way to get ahead in building modern web apps right now. Wes Bos is amongst the best in our industry and I'd recommend this course to anyone looking to get better at JavaScript and React."

Peter Cooper @petercooper
Editor of JavaScript Weekly • Chair of Co-chair of O'Reilly OSCON

WHAT WILL I LEARN?

- How to build an entire App or Website Component in React.js from start to finish.
- Working with create-react-app for Webpack Tooling
- Understanding React Components and writing markup with JSX
- Maintain your Application's State
- Communication between components
- Working with State and HTML5 LocalStorage
- Real time web socket data with Firebase
- Creating maintainable code with JavaScript Modules
- URL routing with React Router 4
- Taking advantage of new ES6 Features
- Deploying React Applications
- + So much more — Check below for a full listing of videos

WHO IS THIS FOR?

Anyone looking to modernize their front end development skill set. If you are already an experienced JavaScript developer, you will simply complete the course a little more quickly.

- Developers reliant on jQuery who want to improve how they build with JavaScript
- Angular, Ember or Backbone developers looking to grok how React works
- PHP & WordPress Developers – React tends to jive well with those who are used to PHP as it was built for Facebook
- Developers looking to add interactive or real time pieces to existing websites
- Anyone who wants to get better at JavaScript and learns well from seeing both fundamental and advanced concepts in practice

NOT SURE IF IT'S FOR YOU?
100% MONEY BACK IF YOU DON'T THINK IT'S A GOOD FIT

VIDEO PACING IS JUST RIGHT - FAST ENOUGH TO KEEP YOU INTERESTED WITHOUT PASSING BY OR ASSUMING ANY DETAILS.

Closed Captioning is provided for every video.

THE COURSE MODULES

Each video breaks down a specific part of React and allows for quick referencing in the future.

Just under 5 hours of video — learn React in an afternoon or two!

COURSE PACKAGES

STARTER COURSE

- First 22 HD Video Tutorials
- All Source Code — build files, npm scripts and Starter Files for each video
- Stream course from any device
- Unlimited Updates
- Exclusive access to the React for Beginners Slack Chat Room where you can ask me for help and chat with other learners

MASTER PACKAGE

- Access to all 30 HD Videos — [see above](#) for a full listing of topics
- Component Interaction + Animation
- Integrating a Login with FireBase Authentication
- Source Code — build system and Starter Files for each video
- Ejecting to Webpack
- Future React – ES2017 and beyond!
- Stream and Download DRM-free files from any device
- Unlimited Updates
- Exclusive access to the React for Beginners Slack Chat Room where you can ask me for help and chat with other learners

WHAT IS REACT?

ReactJS is a JavaScript library that has become the tool of choice for easily building dynamic user interfaces. The power is in the *Virtual Dom* — when your application's data changes, React figures out which parts of your document need to be changed, and immediately update only those parts.

Hundreds of thousands of developers from small agencies to large companies use React to deliver top notch experiences in their apps and dynamic website components.

Like who? Facebook.com is made up of thousands of React components. Instagram web viewer is entirely built in React. The brand new Netflix movie browsing experience is powered by React. And many, [many more...](#)

FAQ

I LOST MY EMAIL. CAN YOU RESEND ME MY ACCESS + RECEIPT INFO?

Log into [your account](#), or create an account with the same email you used to buy the series.

WHAT VERSION OF REACT WAS THIS CREATED FOR?

This series was just totally re-recorded to reflect the latest changes and best practices in React 15, React Router 4 and Firebase 3.

WHAT FORMAT ARE THE VIDEOS? HOW DO I WATCH THEM? CAN I DOWNLOAD THEM?

Once you buy a package, you will be mailed access to a course viewer area where you can stream all the videos. Buyers of the Master Package will also be able to download them for offline viewing. All the videos were recorded at 1920x1080.

WHAT IF I'M NOT THRILLED?

I want to make sure you get real value out of this so I only want your money if you are happy with the product! If you aren't satisfied, please send an email to [wes@wesbos.com](#) with a copy of your receipt and I will refund you.

DO YOU OFFER A STUDENT DISCOUNT?

Absolutely! [Fill out this form](#) with some proof that you are a student and I'll send you a discount code. This applies to anyone in any type of schooling, including evening classes and coding bootcamps!

DOES THIS VIDEO SERIES COVER FLUX? REDUX? FLUXIBLE? REFLUX? ALT? FLUMMOX? MARTY.JS? MCFLY? LUX? MATERIAL FLUX? NUCLEAR.JS? FLUXETTE? FLUPITY FLOP? FLUPPITY FLOOP?

React is amazing in that there are many libraries that work really well with it. While those libraries are fantastic, they may add unnecessary abstractions when learning. The creator of Redux [even says so](#).

So, this course is focused on you absolutely nailing React and walking away feeling confident in your understanding, hungry to learn and build more. Once you finish this course, you can take my free [Learn Redux](#) as a perfect next steps.

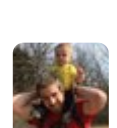

I HAVE ANOTHER QUESTION!

Sure – email me at [wes@wesbos.com](#) or give me a call 416-833-3641!
